Spares list:

On the water:

- * A length of 4mm rope, long enough for the traveller.
- * A bung!
- * A carbine hook. A strong asymmetric (our reference L19) will cover all applications
- * A traveller shackle (our reference L10) will cover all applications

But also

- * chinagraph pencil and rubber for writing info on the boat
- * drink - hydration fluid is best (1/3 orange juice, 2/3 water and a pinch of salt at worst)
- * food for straight after the race if not during. Complex carbohydrates are best)

Tool box:

The list can be endless!!!

- * 4mm dyneema
- * 4mm elastic
- * Knife and lighter
- * Various shackles and carbine hooks
- * Sif (old Jif) and rag to clean hull
- * Stainless Steel rivets and rivet gun (needs to be beefy - some groups buy one between them - Screwfix or Machine Mart)
- * Self bailer
- * waterproof tape - parcel and gaffer
- * More bungs!!!
- * Insignia cloth (same as used on sail numbers) for sail repair
- * 10mm spanners for steering gear
- * Philips screwdriver
- * Mastgate lanyard.

I could go on! In truth the fleet is very friendly and would help out so some of the above is a bit OTT.

Dave Cockerill
